

KARANGULA SATHWIK

📍 Hyderabad, India | ✉ sathwikkarangula2423@gmail.com | 🔗 linkedin.com/in/karangula-sathwik

OBJECTIVE

A motivated Computer Science undergraduate at Pallavi Engineering College, Hyderabad, with a strong passion for Data Science and Machine Learning. Gained hands-on experience through internships at AICTE VOIS and Forage (Tata Group), working on real-world data analysis, predictive modeling, and Power BI dashboards. Developed ML models for handwriting recognition and forecasting, explored Generative AI using Google Vertex AI and Gemini APIs, and completed 140+ hours of SQL training. Backed by certifications from IBM, Deloitte, Google Cloud, GeeksforGeeks, and McKinsey, seeking a Data Scientist internship to apply skills in Python, SQL, machine learning, and statistical analysis to solve impactful real-world problems.

EDUCATION

Pallavi Engineering College

B.Tech in Computer Science

Sri Chaitanya College of Education (TSBIE)

Intermediate – MPC

DR.K.K.R Gowtham High School

SSC Board

Hyderabad, India

2023 – 2027

Hyderabad, India

2021 – 2023

Hyderabad, India

2020

EXPERIENCE

AICTE VOIS

Data Analyst Intern

Remote

Sep 2025 – Oct 2025

- Executed 2 end-to-end ML projects with data preprocessing, feature engineering, and EDA on 5,000+ records using Python.
- Applied statistical modeling to uncover patterns, reducing reporting time by ~30%; visualized results with Matplotlib & Seaborn.

Tata Group – Forage

Data Visualisation Analyst

Virtual

Aug 2025

- Built interactive Power BI dashboards tracking 8+ KPIs and communicated data-driven insights to executive stakeholders.

Colosseum CQ Solutions Pvt. Ltd

AI Image Annotation Specialist

Hyderabad, India

Mar 2026

- Annotated 1,000+ images for CV model training pipelines, maintaining data labeling accuracy above 95%.

PROJECTS

Handwriting Recognition System *Python · OpenCV · Scikit-learn · CNN*

- Built a CV pipeline for handwritten character recognition achieving 89% accuracy on 10,000+ samples with data augmentation.
- Applied image preprocessing and convolutional feature extraction to improve model robustness.

Predictive Forecasting Model *Python · Scikit-learn · Pandas · Matplotlib*

- Developed a regression-based ML model ($R^2 = 0.87$) using feature engineering, hyperparameter tuning, and 5-fold cross-validation.
- Reduced RMSE by 22% over baseline through iterative model selection and ensemble methods.

Generative AI Prototype *Vertex AI · Gemini API · Streamlit · Multimodal RAG*

- Developed a Gen AI app using Google Vertex AI and Gemini APIs, applying Imagen and Multimodal RAG techniques.

TECHNICAL SKILLS

Languages

Python, SQL (Structured Query Language)

Machine Learning

Scikit-learn, Regression, Classification, Clustering, Feature Engineering, Hyperparameter Tuning

Deep Learning & AI

Computer Vision (OpenCV, CNN), Generative AI, LLMs, Neural Networks, Multimodal RAG

Data Analysis

Pandas, NumPy, EDA, Statistical Analysis, Data Preprocessing, Data Wrangling

Tools & Platforms

Power BI, Matplotlib, Seaborn, Jupyter Notebook, Google Colab, Vertex AI, Streamlit

CERTIFICATIONS

Gen AI Academy – Vertex AI, Gemini APIs, Imagen, Multimodal RAG

Google Cloud & Hack2Skill

Getting Started with Artificial Intelligence

IBM SkillsBuild

Emerging Technologies – AI, ML, Deep Learning, SAP BTP (Code Unnati)

Edunet Foundation & SAP

Structured Query Language (SQL) – 140 hrs hands-on

Sri Sathya Sai Seva Organisations

Data Analysis with Python – 5-Day Crash Course

Innomatics Research Labs

Data Analytics Job Simulation

Deloitte (Forage)

Data Analytics – Skill Up

GeeksforGeeks

Power BI Workshop

OfficeMaster
